Subject: No Objection Letter for System Lube Oil (Tian Shan 3008)

Dear Mrs Li YiPing

The Tian Shan 3008 system lube oil has been going through more than 4,000 hours of performance testing on a 6135MC engine

The engine was inspected at the oil test start and end, and crosshead bearing, main bearing and piston crowns (underside) as well as the overall cleanliness in crankcase were inspected, and the lube oil showed acceptable performance.

Therefore we have no objections to the use of Tian Shan 3008 system oil in connection with MAN B&W two-stroke diesel engines.

Since MAN B&W do not produce nor supply any lube oils, MAN B&W is not responsible for any damage to the engines that can be referred to the use of any lube oil.

Best regards,  
MAN B&W Diesel A/S
